Founder's Operating System (Notion Template)

Overview

This is the exact dashboard used to manage a portfolio of automated businesses. It replaces Trello, Asana, and Google Sheets with a single "Command Center."

What's Included

1. **The "Vision Board"**: Aligns daily tasks with 5-year goals.
2. **Project Pipeline**: Kanban view for active sprints.
3. **CRM (Lightweight)**: Track high-value relationships.
4. **Financial Dashboard**: Revenue vs. Expense tracking.

Note: Please duplicate this to your own Notion workspace immediately.

Quick Start Guide

1. Define your "North Star" metric in the Header.
2. Add your current active projects to the "In Progress" column.
3. Archive the example data.
